

Evergreen

Section 1: Concept Overview

Project Objective: We want to explore the possibilities of buying green coffee of sustainable origin for our mini roasting in our coffeeshop. We are looking for an option to buy small quantities of coffee, we are located in Sofia, Bulgaria, so we are looking for an option to import here.

Our goals are related to both the consumption of coffee in coffeeshop and the sale to customers. We want them to have the opportunity to pick and buy coffee with a sustainable origin and related to the causes of coffee challenge.

Brief Description: Through the new opportunities we would like to expand the coffee varieties we use and enable all our customers to be sure that the coffee we make or they make at home has a clear origin and that through it they help farmers and nature. As well as being part of turning coffee into a sustainable product.

Country of Focus: Bulgaria

Key Performance Indicators:

Indicator	Metric	Baseline	Project Target
tree cover + conserve	hectares		1 M
carbon	tonnes		1 million
well-being of coffee workers	feedback from farmers		
sustainable practices	procent		100

Please indicate how this project aligns with the 2025 Targets:

- Resilient supply
 Improve well-being & prosperity
 Strengthen market demand
 Conserve nature
